WE ARE THE CHURCH

Building Unity and Inclusion in Conservative Christianity

BY RONALD E. STEWART

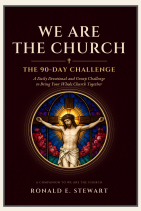

We are not people who go to church. We ARE the Church, the living body of Christ.

Conservative churches are splitting over music, politics, race, generations, and secondary doctrines, and a watching world is taking notes. Through Scripture and true-to-life church stories, *We Are the Church* shows how a congregation can stand firm on the Gospel and the authority of Scripture while extending radical welcome to everyone God sends through its doors. It includes a chapter-by-chapter discussion guide and a practical unity and reconciliation toolkit for pastors, elders, boards, and small groups.

INSIDE YOU WILL LEARN HOW TO

- Tell biblical unity from cultural conformity
- Separate essential doctrines from secondary matters with a "hierarchy of truth"
- Keep healthy boundaries from becoming harmful barriers
- Bridge the gaps between generations, races, and incomes
- Handle conflict God's way, step by step through Matthew 18
- Lead, preach, and govern so that every member matters
